

Familiarise Yourself with ACCS

About our College

You may find that studying at a new college is different to your experience from home, your previous studies or school.

It is a good idea to familiarise yourself with ACCS before you arrive, so as to be well prepared.

- Get to know our [student related policies](#).
- Complete the mandatory [online modules](#)
- Find out more about the college staff - where it is, when program advisors are available, what their contact details are. Your faculty will be your key contact for any questions related specifically to your program.
- Download a [College map](#) to help you find your way.

Any other questions?

After looking over the above sections, you should now be more familiar with ACCS. If you have any other questions, you can:

- Contact the College's student services officer merilyn.smith@ccs.edu.au
- If you have any questions about your offer, please contact the Registrar pam.loneragan@ccs.edu.au
